Oscar Pascasio is an artist of who always seems to manifest a beautiful flow and fluency with each composition he creates. **Memories**, a latest single release from the artist, has a wonderfully lyrical sense of time passed contained within, along with a sense of love and happiness gained along the way; the performance here is indeed utterly blissful.

I must admit I have listened to this offering three times in a row now, and I still want more, now that is a fine example of a good single, the melody and soothing musical narrative here is the winner for me.
