

Words

By

Oscar Pascasio

Written by

Steve Sheppard

The soft refrains from this new single by **Oscar Pascasio** are so beautiful to bathe in, the offering is simply called **Words**, and it is a track flowing in abundance with emotional notes and flavours.

Pascasio has a wonderful talent for creating colourful landscapes of solo piano, but here he has taken that even further and manifested one of the most heartfelt pieces I can ever remember him producing, a thoroughly stunning emotive composition, and one totally recommended.
