The brightness of performance on this new single by **Mythos** is sublime, the world needs vibrant music now more than ever, and the smooth approach, along with the textured musical constructive pathways employed here, gives us all hope.

Legacy is a fine example of really good contemporary instrumental music and the performance by **Mythos** is a careful, yet fluent pastiche of musical colour and craft.

Guitar both acoustic and electric, percussion and keyboards never sounded so sun kissed and tranquil, and all wrapped up into one lovely song that is guaranteed to be a big hit for the artist.
