This latest single by **JC Rodriguez** entitled **My Love Is like a Red, Red Rose**, takes the theme of love and transforms a short form composition into something of translucent beauty. The performance on acoustic guitar by the artist is so touching and tender, and to add to that his finger picking style and the fluency of this performance is by far some of the best from the artist as of yet.

JC Rodriguez will touch many hearts with this graceful and heartfelt presentation on guitar, and its peace filled refrains will also create a moment of love for the listener to enjoy as well.
