This beautiful song by artiste **Kimberly Haynes** has such a delightful message contained within, which reminds me of an old *Four Tops* song, Am I My Brothers Keepers? Yes I am. The words say it all, we need to have a oneness of spirit, and we need it right now!

**My Brother's Keeper** is a powerful song sung sublimely by Hayne's, who at times reminds me of Carly Simon in texture, which indeed cannot be a bad thing, and this singles anthem styled nature is packed with a true emotive soul, and for that alone should be applauded.
