The soothing and cheer filled refrains from this brand new multi-instrumental single by **Karen Biehl** is certainly one to watch, with elements of *Enya* and some of the most marvellous new age textures around, the artist has really brought something delightful to our musical table with her single **Angels in Eden**.

Biehl's ability to create a blissed filled musical soundscapes is well known, and here she has manifested one that has symphonic and angelic gestures that are simply sublime. The smoothness of production, the pertinent sounds of nature, it is simply idyllic, **Angels in Eden** is a wonderland of all that is good and a musical garden of plenty for us to all enjoy when we wish.
