I truly enjoyed this latest single by pianist **Ryan Marvel**; it had such a delightful energy about its construction, so much so it was utterly blissful. **Equinox** is a really clever track too, with so many musical influences and nuances contained within. The melody is both warm and charming and this is one of those pieces that Marvel will look back on in the years to come, and be proud of his creation.

Choosing a single in the packed solo piano genre is difficult on its own, but **Ryan Marvel** has produced something that has a great narrative and theme, and is musically accessible to all, I have a feeling that this slice of solo piano magic may well reveal a big hit for the artist too.
