**Steve Sheppard**

The season of Christmas can bring up many memories for us and there is nothing better than a familiar tune of our youth that will provoke fond thoughts of the holiday season, with this in mind **Annie Locke** has produced one of the lightest and most inspiring pieces I have heard for some time.

Locke has an almost timeless performance style, she is technically gifted, yes, but also manifests a great deal of warmth and sincerity into each and every recording.

Here on **Oh Holy Night**, she brings us a passionate and pristine performance to enhance our holiday season. This redolent and glowing rendition of *Adolphe Adam's* 1847 Christmas Carol, is a sparkling addition to our seasonal ambience.

Locke's care and attention to detail on this offering is equally matched by her energetic and positive playing, we can all enjoy our Christmas time more now, by adding this single to our ever growing musical collections.
