Oscar Pascasio has become a real fan favourite across the airwaves, his charming style and musical narrative are much loved, and this new single is about to win even more hearts into his already brimming locker room of fans.

Waiting for You is a beautiful and incredibly warming song manifested by the artist that has a wonderful sense of warmth about its construction; the performance is Pascasio's at his usual brilliant self, this melody and arrangement is so emotive and moving its going to be an obvious winner with the listeners and purchasers of fine music across the globe.

Waiting for You by **Oscar Pascasio** is the artist playing with such a level of honesty and with his heart on his sleeve, in my book, this is a sure fire winner of a track, one destined to be a huge hit single.
