New Age music is making a huge insurgence into the hearts and minds of us all at the moment, and this new single by **Elyssia** is part of that march towards a beautiful new dawn of music.

With elements of *Enya*, and perhaps the band *Freud* too, we have a wonderful new sound one that combines the talents of *Marianne Lihannah* and *Paul Landry*, who jointly manifest this magical and mystical new offering.

The tone and overall feel of the composition, **Down By The River**, is deeply powerful and extremely colourful in its manifestation, one that should with ease resonate with its audience. Landry's work on guitar is perfectly balanced with the sublimely ethereal vocals of the Lihannah; I can see this single becoming a bit of a fan favourite, and as such I am more than happy to give it a very big thumbs up.
