

Saturn Voyager Suite (Original Soundtrack)

By

André Luiz Machado

Written by

Steve Sheppard

This latest offering by the artist **Andre Luiz Machado** is both grand and complex; its powerful sense of purpose is beautifully put together, in a style that almost creates a new genre in electronic classical.

The operatic backdrop of vocals in this single truly create an energy that is so very totally addictive to listen to, the keyboards and synths then add layer upon layer of crafted genius upon the piece.

One must add that the use of pause in this single was magnificent and the perfect musical ploy to gather an essence of suspense and create a suite with a clever artistic skill.

Saturn Voyager Suite climaxes with what could only be described as one of the finest endings in this genre, and one that really should feature on a Sci-fi movie, absolutely riveting stuff indeed.
